Client Testimonials

Ilene has shown herself to be a very professional and enthusiastic member of our team. She has a good feel for each horse and their unique needs and uses many different body work techniques tailored to each horse's situation. The horses respond willingly and respectfully. Ilene is great about sharing knowledge, answering questions & teaching different stretches that help maintain her work. It is also really great to have a body worker who also has extensive knowledge about how the saddle fit affects the horse's musculature. Thank you Ilene for keeping our boys happy and healthy!

Portland Mounted Patrol Unit Jennifer Mack, Trainer and Riding Instructor Franz Schoening, Sergeant, MPU

Thank you so much for coming to speak at the OET Annual Meeting. We received rave reviews about your saddle fitting presentation from our members. It sounded like everybody learned a lot and enjoyed hearing what you had to say, and nobody wanted to leave your presentation to attend the next session. Way to go!! Thank you for coming!!

Kim McCarrel, VP Of Marketing Oregon Equestrian Trails

Our Modern Shetland stallion, Toby, was having issues with shaking his head while being driven. Ilene found a number of tight areas and after a couple of treatments, his pain and tightness were gone. He has since driven beautifully and finished his points for Supreme Championship. We love working with Ilene and, more importantly, Toby loves her!

Sue Svendsen, Owner, Designer Dog Grooming Vancouver, Washington

Ilene is a miracle worker! My gelding, Toby, was experiencing major issues picking up and holding the right lead. I was considering retiring him from the show pen. After just a few sessions, Toby was transformed. My trainer and I are amazed by the change!

Deb Cablao President, Hillsboro 4-H Hillsboro, Oregon
